HEADQUARTERS EIGHTH AIR FORCE AAF STATION 101 APO 634

EIGHTH AIR FORCE LARRATIVE OF OPERATIONS

301st Operation - 13 April 1944.

1st Bombardment Division - Schweinfurt

2nd Bombardment Division - Oberpfaffenhofen, Lechfeld

3rd Bombardment Division - Augsburg

415 B-17s and 211 B-24s of Eighth Air Force, escorted by 24 groups of USAAF fighters, were disputched against German twin-engine fighter centers at Augsburg, Lechfeld, and Oberpfaffenhofen, and ball bearing plants at Schweinfurt, which had been partially repaired since the last Highth Air Force attacks. Clear weather allowed visual bombing and all targets were successfully attacked, preliminary reports indicating results to be excellent at Schweinfurt, good at Lechfeld and Augsburg, and fair at Oberpfaffenhoffen.

Two combat wings of 1st Division met vicious air attacks as they approached Schweinfurt from the southwest as well as on their withdrawal north of Frankfurt. These attacks and the intense, extremely accurate anti-aircraft fire experienced by the 3rd Division over Augsburg accounted for a large proportion of the 30 bombers missing. Escorting fighters of VIII and IX Fighter Commands reported encountering over 300 e/a, with more than 170 seen in the Schweinfurt area alone. Total fighter claims are 77-8-32, with claims of 35-0-21 being for e/a shot up in strafing attacks, in which damage was also done to shipping, factories and locomotives. Seven a/c of VIII Fighter Command and two of IX Fighter Command are missing.

BOLBING RESULTS:

Schweinfurt - Excellent Results.

There has been considerable reconstruction of the Kugelfischer and VKF ball-bearing plants, severely damaged by previous Eighth Air Force attacks.

154 B-17s dropped 405 x 1000 G.P. and 2825 x 100 I.B. - 343 tons - from 19,000 - 21,300 feet at 1409 - 1416 hours.

Kugelfischer Works - Two heavy concentrations of G.P. cover the entire plant area. Although smoke and debris make accurate assessment difficult, it can be seen that the building known as the "New Works" has suffered five hits and a large machine shop in the center of the area has had four direct hits. There is probably severe damage to the forge, heat treatment and a medium sized machine shop.

VKF Works I - Damage to storage and dispatch building, a small machine shop and the main machine shop. The entire western portion of the target appears severely damaged.

VKF Works II - At least three direct hits on large assembly and machine shop, and damage is severe. Incendiary hits can be seen on the stores and packing buildings, the heat treatment shops and small unidentified buildings. Other Damage - There are at least 18 G.P. and additional I.B. hits on a marshalling yard. I.B.'s fell on the Fichtel and Sachs Works but smoke and haze obscure results.

Lechfeld - Good Results.

This A/D is believed to be a testing field for He 410s and experimental a/c of the Lesserschmitt plant at Augsburg. 93 B-24s dropped 556 x 500 G.P. and 2191 x 100 I.B. - 248.6 tons - from 19,500 to 22,000 feet, at 1517 - 1520 hours. Three hangars, refueling points, the control tower and barracks were hit. Eight cut of 47 a/c on the ground were destroyed or damaged.

Oberpfaffenhofen - Fair Results.

One of the most important factory airfields for Do 217 assembly. Possibly produces 410s. 60 B-24s dropped 75 x 1000 G.P., 160 x 500 G.P., 360 x 120 Frag.

CONFIDENTIAL

clusters and 988 x 100 I.B. - 148.5 tons - from 18,000 - 20,000 feet at 1509 - 1527 hours. There were HE hits on one assembly hangar and I.B. hits on another. Offices were also hit and about 15 a/c on the field were probably damaged or destroyed.

Augsburg - Good Results.

207 B-17s dropped 1491 x 500 G.P. and 2242 x 100 I.E. - 484 tons - on the Messerschmitt plant at Augsburg from 19,700 - 23,700 feet at 1453 - 1507 hours. Preliminary assessment of strike photos indicates hits on the sub-assembly machine shop, the power house, the flight hangar and other workshops. There are incendiary strikes on two round hangars and on a machine and press shop. There are probable hits on the components plant, located off the southwest corner of the airfield. Smoke from the heavy concentration prevents accurate assessment but there can be no doubt that this target was damaged.

Other Targets.

20 B-17s dropped 789 x 100 I.B. and 10 x 500 G.P. on the city of Augsburg.
29 B-21s dropped 55 x 100 G.P. and 713 x 120 frag. clusters on Lauffen, an opportunity target between Heilbron and Stuttgart. In addition, one B-17 and two B-21s dropped 5 x 1000 G.F., 52 x 100 I.B. and 10 x 500 G.P. on unidentified opportunity targets.

4,000,000 US G 39 and 1,200,000 US G 34 leaflets were dropped by 1st Division on Schweinfurt.

ENCOUNTERS: 1st Bombardment Division - Of the three Bombardment Divisions, the first met the heaviest enemy air opposition. From 50 to 150 e/a were encountered. The first attacks began in the vicinity of Wittlich and continued to a point near torms. Around 1400 hours, another series of attacks was launched 10 minutes before Schweinfurt, and continued for about half an hour. The lead combat wing, which sustained the heaviest losses, was first attacked at about 1350 hours, near Klingenberg. Eight B-17s of the high group were shot down in about 3 minutes. At this time this lead group was bounced by 15 e/a, but suffered no damage. Crews reported the usual tactics and types of attack. One group reported e/a high above our formations probably directing other e/a to our formations as the friendly escort departed.

3rd Bombardment Division - Enemy reaction was very weak. Only 15 - 25 s/e e/a were sighted in the entire mission. Fighter escort was so effective that e/a made only a few weak passes and sneak attacks, using cloud cover. Generally e/a appeared to be merely shadowing our formations and waiting for stragglers. From 10 to 15 FW 190s and Me 109s made weak attacks in the target area. Three e/a made a few passes in the area just north of Trier and 2 FW 190s made a weak pass near Brussels.

2nd Bombardment Division - Enroute to the target, the leading combat wing observed only 2 or 3 FT 190s but they did not attack. The following combat wing encountered from 15 to 20 s/e e/a, mostly FN 190s, in the vicinity of Harburg to Nordlingen. Attacks were not aggressive. The trailing group of the last combat wing was attacked ineffectually north of Augsburg by 8 FW 190s and Me 109s.

REASONS FOR FAILURE TO BUTB: 30 B-17s and 26 B-24s failed to bomb - 7 B-17s and 15 B-24s due to mechanical or equipment failure, 1 B-24 due to weather, 21 B-17s due to enemy action, and 2 B-17s and 10 B-24s due to other reasons.

CASUALTIES: Personnel - 4 crew members were killed, 46 were wounded, and 301 are missing.

Equipment - 32 B-17s and 6 B-24s were lost - 14 B-17s and 2 B-24s due to #A fire, 15 B-17s due to e/a, 1 B-17 due to e/a and AA, 4 B-24s and 2 B-17s due to reasons unknown.

Lstimated Battle Damage - 245 B-17s and 85 B-24s category "A" and "AC", 82 B-17s and 2 B-24s category "B".

ANTI-AIRCHAFT FIRE: Flak was intense and accurate at Schweinfurt, and unusually accurate at the enemy coast. Leager to moderate and inaccurate flak was put up from Brussels, Traben-Trarbach, Worms, Ghent, Frankfurt and Namur. At Augsburg, flak was intense and accurate. Of 230 a/c attacking that target, 189 received battle damage, and 12 of the 18 a/c reported as lost were lost to An fire, and 4 others, probably having been forced out of formation by flak, were destroyed by enemy fighters. Moderate accurate flak was encountered at Stuttgart, Brussels, Liege, Newport, Karlsruhe, Munich, Nordlingen, Lille and Ronbers; meager and inaccurate flak at Speyer, Heilbronn, Louvain, and Ostend; meager, accurate flak at Charleroi. It Oberpfafienhoffen An fire was moderate and accurate; at Lechfeld, moderate to intense but inaccurate, in some cases, meager to moderate and fairly accurate in others. Moderate inaccurate An was reported from south of Brussels and intense but inaccurate from Denauworth.

WEATHER: Adverse weather conditions over England prevented one combat wing of the 1st Bombardment Division from assembling and forced the abandonment of the mission. The other combat wings encountered generally 2/10 to 3/10 cloud on the route over France with 5/10 to 6/10 in the target areas. Slight ground haze was encountered at Augsburg but this did not seriously affect bombing. Bombing was accomplished visually through breaks in the cloud. One group was prevented from bombing their primary due to heavy cloud cover and bombed the center of the city instead. For many groups cloud opened up just before target areas were reached.

OBSERV.TIONS: The following observations were made of airdromes: 50 to 60 t/e and s/e aircraft were seen at Lechfeld A/D, 30 to 50 t/e and s/e e/a at 4155N-1102E, 75 t/e a/c at Landsberg A/D, 25 unidentified a/c at Bad Worishafen A/D, 15 to 20 t/e a/c at Oberpfaffenhofen, the same number at Hagenow A/D, 30 to 40 t/e and s/e planes at Kaufbeuren, 15 s/e a/c at Biberach, 25 to 30 s/e a/c at Sobernheim, and 17 s/e a/c at LC50N-0738E.

An ineffective smoke screen was observed at Schweinfurt, an effective one at Friedrichshaven, and two other smoke screens at Ludwigshaven and Hannheim. Other observations included: a marshalling yard, with heavy traffic at Namur, a large factory with conveyor belts running to mounds at 5027N-0902E, 50 objects brilliantly reflecting the sunlight in a camouflaged wooded area at 4950N-0705C, three rows of barges drawn up on the beach at Ostend, and military camps in the vicinity of Baumhelder and at Idan. In addition, it was observed that the autobahn and railroad bridges crossing the Lille River appeared to have been removed.

FIGHTER OPERATIONS

351 P-47s, 134 P-38s and 151 P-51s from 13 groups of VIII Fighter Command, and 153 P-47s and 85 P-51s from 5 groups of IX Fighter Command provided escort to all targets on this operation. By far the largest concentration of e/a was met by the groups escorting 1st Division B-17s to Schweinfurt. These made at least one determined attack on the bombers and consistently avoided the fighters, with the result that fighter claims for the Schweinfurt mission were comparatively small. Fighters providing escort to other targets met slight opposition before the target and almost none when escorting bombers on withdrawal. VIII Fighter Command claims are 60-6-23 of which 34-0-20 are for e/a strafed on the ground. IX Fighter Command claims 17-2-8 of which 1 e/a is claimed destroyed on the ground. 2 P-51s, 3 P-38s and 2 P-47s of VIII Fighter Command are missing, and 2 P-51s of IX Fighter Command were lost.

BOMBER ESCORT

Escort to 1.st Bombardment Division: The 365th Group rendezvoused with the 1st Division Fortresses at Andenarde at 1238 hours and escorted them to SE of Ans at 1308 hours. Twenty miles SE of Charleroi 20 plus Me-109s and FW-190s were seen approaching the bombers but avoided an engagement. During the period when the 78A Group accompanied the bombers from SE of Liege at 1308 hours to Worms at 1356 hours, 15-25 e/a attacked but were dispersed. 15 more e/a were seen E of Saarbrucken. Shortly after the 354th Group rendezvoused at 1336 hours, 50-75 FW-190s attacked the bombers head-on but were successfully dispersed. Ten minutes before reaching the target, 100 FW-100s and He-109s came in and engaged our fighters, resulting in the destruction of 14 e/a. Their escort was broken off at Berg at 1500 hours. The 4th Group engaged 20 plus e/a S of Aschaffenburg at 1345 hours, continuing on to meet the bombers 15 miles NV of Schweinfurt at 1415 hours, Escort broke off just E of Ghent at 1557 hours. During the time the 20th Group escorted the bombers from Bruckenau at 1420 hours to Malmedy at 1525 hours, no e/a were seen. At Geissen at 1440 hours, the 362nd Group gave support to St. Vith at 1525 hours. Two e/a were chased into the clouds at Koblenz, but no combat ensued. The 359th Group provided uneventful escort from Pronsfeld at 1511 hours to Nicuport at 1612 hours without sighting any e/a.

Escort to 2nd Bombardment Division: 356th Group made contact with the Liberators off the enemy coast at 1300 hours, and broke off 50 miles SE of Strasburg at 1435 hours. The formation passed SE of Chent at 1310 hours and N of Charleroi at 1315 hours. At Huy one pilot became separated from the group and destroyed 2 FW-190s at 3500 feet. The 357th Group rendezvoused at Brussels at 1313 hours but swept on from there to Karlsruhe and rejoined the bombers at Homberg at 1405 hours. They then continued on together to the target and broke away at Donauworth at 1528 hours. The enemy was engaged at Donauworth and in the Mannheim area with a resulting score of 7-1-0. The 355th Group joined at Weingarten at 1440 hours and continued on until 1635 hours, during which time 14 Me-109s were attacked at the target area and 5 at Nordlingen, which resulted in

6 e/a claimed destroyed. During the time the 55th Group furnished escort from NE of Augsburg at 1525 hours to Saarbrucken at 1615 hours, 2 He-109s attacking the bombers were probably destroyed. The 56B Group met the formation at Speyer at 1555 hours and escorted it to W of Koblenz at 1645 hours. Two of the three FW-190s which attacked were destroyed. No other e/a were seen at the time. The 353 B Group picked up the Division S of Bruges at 1733 hours and left at mid-channel. No e/a were encountered. Two squadrons of the 361st Group conducted 4 combat wings of the 2nd Division from S of Malmedy to the enemy coast without mishap. The 365th Group on its second mission provided uneventful escort from Court St. Etienne at 1710 hours to South Nieuport at 1754 hours. The 366th Group joined SW of Brussels at 1545 hours and continued on to the enemy coast at 1655 hours, while the 352nd Group on type 16 control was vectored to Ghent, Lille and Namur. Both of these last two escorts were uneventful.

Escort to 3rd Bombardment Division: The first mission of the 361st Group was to accompany the bombers without escort from Andenarde at 1250 hours to SE of Stavelot at 1321 hours. At this point, the 78B Group took up the escort and left the bombers in the vicinity of Pirmasens at 1356 hours. The 352 A Group met the Division in the Soultz area at 1355 hours, and shortly after leaving them in the Kaufbeuren area at 1440 hours, destroyed one enemy trainer in the air near Stuttgart. The 363rd Group rendezvoused in the Saarbrucken area at 1405 hours, 20 minutes earlier than scheduled; 2 squadrons accompanying the 2nd Air Task Force and 1 squadron with the 2nd Division Liberators. They left the bombers in the vicinity of Luxembourg at 1615 hours, having engaged the enemy for a score of 2-0-0 for no loss. The 364th Group rendezvoused at Donauworth at 1510 hours and broke escort S of Halmedy at 1626 hours. While the 56A Group was with the formation from Speyer at 1545 hours to Liege at 1643 hours, 5 Me-109s were seen and 1 destroyed. The 353rd B Group proceeded to the rendezvous point but observed no Fortresses, although they saw 3 combat wings of Liberators W of Brussels. The 361st Group, while on its second mission, met the formation of the 3rd Division 35 miles SE of Brussels at 1620 hours. One squadron escorted them to the enemy coast.

STRAFING ATTACKS AND FIGHTER OBSERVATIONS VIII Fighter Command

- 7. How long did formation fly straight and level before bombing?
- 8. Turn after bombing. (Course away from target)
- 9. Short description of evasive action in target area.

 Both groups mild turns with no lose of altitude until bombs away- then sharp right turn with no change in eltitude.
- A description of flak en route and at target, including if possible, suggestions as to type of fire control employed. Include herein any phenomena or comments.

Both A and B groups failered the same HELL route. The first flak was engount ered at the coast from Ostend and Dunkarque, at 12:39. This was to right and left of formation low and seager through the undercast. The next was observed at 1361 to left in distance. This was unseen continuous pointed, level in bursts of 2. It 13:10 flak was seen from Liege, Level but not near group. This was meager. Seyond Liegs no flak was encountered until 14:10 when a fairly heavy concentration was seen to left in distance probably from Karlshrus. Bince no planes were near this flak presumbly it was a barrage. Beyond Karlabrus no flak was seen until IP was reached but of interest is the laying of a snoke screen over Fredrichansfen by 6 or more boats in the mater, 12 planes in the sir and also smoke pots on the ground. After turning at the Ip at 11:45 flak was encountered from the A/F at Laudeburg - on - Locke. This was meager to right and level but some distance away Over Leonfold A/D moderate seen continuous pointed fire fairly see rate was ancountered and from here to target it is stated fish fire was almost continuous, with one observer stating he saw at least 26 guns located slong the river in the moons between the two A/Fas . Flak on the beab run and over Augsburg in commised as this so and a curate using soon continuous pointed fire from batteries of & and 6 guns and predicted concentrations of 12-18 guns. All except one plane damaged was hit here. On route back at 1532 flak fire was seen both to right (me ger to moderate) and to left(heavy), from Hellbron and Stuttgart. All fire was level but distant. A 15:44 flak was seen in distance to right probably from Karlshrus again. Beyond the Whine no more flak was encountered until Charlerod was reached at 16:42. From 16:42 until 16:48 flat was continuous but of mesger to moderate intensity using seem continuous pointed fire, which was on both right and left with accurate fire reported from vicinity of Hal where one plane was hit. This flak probably came from Charleroi Mivelle A/F, Brussels and Hel. At the ovest both Dunkerque and Ostend were in action with Dunkerque fire seager but distnet and Ostend shooting at a orippled straggler at about 10,000 altitude. This straggler had returned from target on 2 engines to Ostend where it was shot down into the channel. Dur grove may it was directly over Ostend and that a 6 gun battery shot it down.

HEADQUARTERS 100TH BOMBARDMENT GROUP (H) Office of the Intelligence Officer

APO 559 13 April 1944

SUBJECT: Digest, Crew Comments and Suggestions, Operational Mission #147

: Commanding Officer, 100th Bomb Group (H), APO 559

1. Submitted herewith is a digest of crew comments and suggestions compiled by S-2 on Operational Mission #147, 13 April, 1944:

- a. Members, Crew #32 EM had powdered eggs and one hot cake for breakfast. Only time we get a good meal is when mess officer is around and that is very seldom.
- b. Members, Crew #69 Poor breakfast. Also want food on long missions. c. Officers, Crew #33 - Why not credit us with mission of the 12th April.

d. EM, Crew #33 - Too many men in barracks.

- e. Lt. Pearson, Crew #55 Should get credit for mission of 12th April. Received flak holes in ship.
- f. T/Sgt. C. A. Leavitt, Crew #36 Gunners should keep guns pointed in proper range of fire.
- g. Members, Crew #36 Release chaff from hatch behind BT so it wont interfere with waist guns.

h. Members, Crew #29 - Want fruit juice at interrogations.

- 1. Lt. Schwank, Crew #75 Request instructions for challenging of "phoney" B-17's. One observed today and failed to answer challenge.
- j. Lt. E. P. Noordyk, Crew #17 Need armour plating for A/C. New chaff much better than old.
- k. Lt. R. F. Lischer, Crew #34 Unable to get lead ship on radio. Threw out all chaff with no instructions to hold any for further flak.
- 1. Members, Crew #14 350th Squadron crew members have to walk a mile to get hot water. Request food to take along on long missions.

m. EM, Crew #19 - Barracks are overcrowded.

n. EM, Crew #68 - Poor breakfast. Mess hall not adequately staffed.

Gunners, Crew #50 - Escorts shouldn't come in head on.

- Lt. Rake, Crew #21 Flak was accurate over target area because there wasn't enough difference in altitude between wings.
- q. Members, Crew #9 Weather predictions wrong in regards to letting down to save oxygen. Radio Operators and ones listening in on VHF should have split head sets. Binoculars should not be removed from A/C. Want new arrangement for throwing chaff out. Also too much time for assembly.
- r. Lt. Johnston, Crew #4 Should get credit for mission of 12th April.

s. Lt. Morgan, Crew #42 - Weather predictions not accurate and suggest taking weather man who sends this information on a mission. Want Wing and Division leaders to stop using VHF. Runway at intersection of 30 and 28 should be levelled off. Also want tannoy in WAAF Site. t. EM, Crew #7 - Combat mess not run efficiently. Want mail room kept open so we can get our mail when we return from mission. Members, Crew #38 - A/C was hit by flak yesterday, so we should be given credit for the mission. v. S/Sgt. Koger, Crew #61 - The area of search should be explained again to all gunners. Turrets on A/C flying #2 in low squadron covering A/C flying #3 in same squadron. w. Lt. Zapf, Crew #61 - S.O.P. on spares substituting should be explained to pilots again. MINER SHAW, Major, Air Corps, Intelligence Officer.

FEBRUARY 25TH WAS CONCENTRATED PRIMARILY ON THE EXPERIMENTAL BUILDINGS IN THE NORTHEAST CORNER OF THE FIELD. AREA ON THE MOST IMPORTANT BUILDING OF THE HIGHEST PRIORITY PORTION OF THE TARGET-THE SYNTHETIC RUBBER PLANT.

FLAK:

THE COURSE INTO AND OUT FROM THE TARGET AREA IS NEARLY FREE OF KNOWN FLAK DEFENSES. SUCH PLACES AS DUNKIRK, OSTEND AND COURTRAI SHOULD BE AVOIDED AND THESE DEFENSES ARE OUT OF RANGE OF BRIEFED COURSE. THE TARGET AREA IS DEFENDED BY 120 GUNS. THE BOMBING APPROACH FROM THE SOUTH WITH A RIGHT TURN AFTER BOMBING IS BEST. ON ROUTE BACK FROM TARGET, SOME MEAGRE FLAK WILL PROBABLY BE ENCOUNTERED AT HEILBRONN AND SPEYER. IT IS PROBABLY BEST TO TAKE THE FLAK AT SPEYER THAN CHANCE GETTING INTO THE STRONG DEFENSES OF KARLSRUHE AND MANNHEIM UNLESS, OF COURSE, MANNHEIM IS BOMBED AS A PFF TARGET. VISUAL SECONDARY IS BELIEVED TO BE MEAGERLY DEFENDED.
